Personal Profile

A Masters' graduate in Computer Science with a diverse skillset spanning both technical and managerial positions. Experienced in programming and leadership, with a proven ability to manage and assist in the successful execution of IT and software projects. Strong communication and interpersonal skills to allow productive collaboration with stakeholders at varying levels.

I aim to apply my knowledge and skills to contribute to a dynamic team in a project management or software development capacity, as well as continue expanding my skillset further.

Experience

IT DIRECTOR | GLODEN LTD. | 2023-2025

- Identified and led initiatives to resolve technical inefficiencies in day-to-day operations, improving system reliability and staff productivity.
- Introduced the use of the Atlassian package, including a centralised back-office knowledge base, streamlining troubleshooting and reducing support time overhead.
- Collaborated with stakeholders and owners regularly to develop and align an IT strategy with current business goals.
- Oversaw and managed infrastructure upgrades, including RFP and liaising with 3rd party contractors on internet, hardware, and maintenance projects.

WEB DESIGNER | FREELANCE | 2020-2023

- Designed web rebrands for clients, with a focus on modernization, accessibility, and mobile-first designs.
- Worked as part of a small team on a Ruby on Rails web development project.
- Assisted in RedHat server migration.

IT EXECUTIVE INTERN | PERNOD RICARD UK | 2019-2020

- Contributed to the project management of a Salesforce Service Cloud rollout across Northern Ireland, liaising with stakeholders and developers, applying own expertise, and presenting to both internal management and external clients.
- Managed internal project to deliver a software solution enabling the marketing team to easily access up-to-date presentations and brand assets; conducted an RFP process and coordinated delivery with an external development team.
- Provided first-line IT service desk support, resolving technical issues across the organisation.

Education

MSCI COMPUTER SCIENCE | 2025 | CITY ST. GEORGE'S, UNIVERSITY OF LONDON

Final Grade: 2:1

Relevant Modules: Project Management | Object-Oriented Programming | Functional Programming | Programming and Mathematics for Artificial Intelligence | Cloud Computing

IT PRACTITIONERS EXTENDED DIPLOMA | 2017 | WESTON COLLEGE

- Final Grade: D*D*D*

Key Skills

Programming and Frameworks

Proficient: Java, Python (incl. PyTorch), C#, SQL (incl. Transact-SQL)

Working Knowledge: C++, Node.js, Salesforce
